

TVGUARDIAN IS A FOUL LANGUAGE FILTER FOR YOUR TELEVISION
Simply... **1.** Connect your viewing source to TVGuardian. **2.** Connect TVGuardian to your TV. **3.** Enjoy

Dear Friends and Family:

There's a secret I've been keeping from many of you. I'm a little embarrassed that I've kept this to myself for so long, but I'm finally ready to let the cat out of the bag... I've been using TVGuardian in my home to filter profanity and offensive language from TV, and it's made a huge difference for my family.

It's true. Thanks to TVGuardian, my family is no longer caught off guard when Hollywood slips in the occasional F-word... we don't have to hear the name of Jesus used as a cuss word... GD on TV is now muted... we don't have to hear it anymore!

The good people at TVGuardian have asked me to help spread the word. How many of your friends and family even know such a thing exists? I've shared my "TVGuardian Secret" with some of my friends and family, but not everyone at my church knows about it, and that's a shame. I've decided to help with TVGuardian's grassroots effort to get the word out. Could you help me? Please forward this email to all your friends and family. Let your church and/or school know about it. If you're on Facebook, let all your friends there know, too.

TVGuardian technology is now available in your home for as little as \$9.95/mo. Almost 90% of our country's families pay a lot more than that to bring foul language into their homes... isn't it worth \$9.95/mo to filter it out of TV shows and movies that would actually be better without it? There's even a 40-Day Free Trial, so you can find out for yourself what a difference TVGuardian makes in your home. If you would rather own it, there's a normal purchase option, too.

TVGuardian has been a secret far too long. It's about time everyone knew about it. Please help with this grassroots effort and spread the word... forward this email... tell your friends, family and church. This secret really should not be kept to yourself.

To learn more go to TVGuardian's website at www.tvguardian.com.

After visiting the TVGuardian website, please do not forget to share this information with others.

Thank you and have a blessed day!

Your Friend

P.S. If you agree that more people need to know about TVGuardian Foul Language Filter, please forward this email to as many people you can, tell your Facebook friends, and help spread the word. Feel free to substitute your own name and add your own testimonial.
